PROFESSIONAL SUMMARY

A task-driven full stack web developer looking forward to work in user-centric product company. Excellent debugging ability and problem-solving skills and work better in a team-environment. Seeking to apply my skills in a professional setting.

PROJECTS

[REVV CARS, CLONE](#) |  

Introduction

Revv is India's best and most trusted traveling facility provider website, which has helped millions in need.

Features:

- Sign-in/Sign-up user authentication
- Car's page: Integrated search filter with filterization and pagination.
- FAQ page
- Card detail page for each fundraiser
- Payment page

Tech Stack: Chakra UI | React | JavaScript | Redux | CSS

Areas of responsibility:

- Created a static FAQ with dropdown functionality.
- Created Car's product page where I applied basic user interface (Fetch data).

A collaborative project created by a team of 5 developer in a week.

[VEDIX, CLONE](#) |  

Introduction

Vedix is a customized ayurvedic hair care regimen that offers ayurvedic anti-hair loss products.

Features:

- Sign-in/Sign-up user authentication
- API for data
- Responsive design
- Functionality: search, sort, filter, add to cart and remove to cart

Tech Stack: HTML | CSS | JavaScript | DOM

Areas of responsibility:

- Created a static (science page, which also contains 2 pages and a pricing page) and dynamic page (shipping method page) which have functionality like fetch personal details of user from previous page and send it to next page.
- For running this project, you need to run server manually by giving command => npm run server
- Then json server will start on port 3001, just check and now you can run functionality of this clone website

A collaborative project created by a team of 6 developer in a week.
